

Important Information for Current Durant ISD Families

Steps for a successful Annual Update/Enrollment for the 2021-22 School Year:

STEP 1

Log in to your parent portal TODAY!!!! Contact your child's site if you are unable to access the parent portal. Please **DO NOT** wait until March 1st to make sure you have access.

STEP 2

Make sure **ALL** of your current students show up in your parent portal. If not, contact your school site for assistance to make any changes or corrections to your household **PRIOR** to starting the online annual update/enrollment process. Only the legal/custodial guardian can enroll a student. **If all of your students are not showing up, please do not start the application until you have spoken with support.**

STEP 3

Log in and complete the annual update/enrollment! It's that easy!!
The enrollment/update window will open on March 1st.

If you are adding a first time Pre-K or Kindergarten student, you will do this thru the parent portal as you are completing the annual update for your other students. Pre-K applications are time & date stamped so don't delay in getting yours completed to save your spot!
